Story 1

better
injab,

Plantation Agriculture is a form of commercial farming where crops are grown for Profit. Countries that have Plantation agriculture usually experience high annual temperatures and receive high annual rainfall.

Agriculture is considered as one of the most important sectors for the Indian economy. Although the crop production in India is increasing every year, but various crop stresses resists the rate of increment of crop.

Story 1

When plants of the same kind are grown and cultivated at one place on a large scale, it is called a crop. For example, crop of wheat means that all the plants grown in a field are that of wheat.
